PRECISION IN MOTION

[rolleaseacmeda.com](http://rolleaseacmeda.com)

## Winner of the 2010 Red dot design award, SHAN is the state-of-the-art of the cassette awnings.

When it comes to your house, you want a cassette awning that works perfectly and that shades without compromising the aesthetic line. SHAN meets all these requirements and fully integrates with the architecture. SHAN, no compromise on performance, no compromise on design. Because of its marked shape and design, SHAN can only be installed on wall and is only motorized. It is a furnishing object that matches aesthetic and functionality: SHAN, always groundbreaking. The D.T.S. system (Dynamic Tipping System) allows the tipping of the support when the awning is retracting, maintaining a perfect closure of the cassette. The special gasket along the whole terminal profile makes the awning watertight and ensures a silent closure. A single section is up to 7 meters with and can reach a 4,15 meters projection; it can be coupled up to 10 meters with one single fabric.

### Awning sizes with folded arms

### Projection and inclination

All dimensions are in centimeters unless otherwise stated

### General features

- Class 2 wind resistance according to European standard EN 13561 (600x365 cm)
- Retractable arm awning with cassette
- Only wall installation
- Inclination ranges between 0° and 40°
- Roller tube 80 mm
- Arm URBAN with DATSystem
- Maximum sizes of a single section: 700x415 cm
- Only motorized
- Continuous micrometric regulation of inclination
- Certified Italian Stainless steel screws and pins
- Certified by TÜV Rheinland
- Design patented
- 2010 Red Dot Design Award winner

### Colours available
